2. Master

After the download, you must insert the smartcard from your service provider.

- The SmartWi applications starts and the version information is sent to the Toolbox. This function is only compatible with firmware 2.43 and newer.
- The green LED on the Master box will then give two short flashes.
- If the green LED continues to flash with a 2.5 seconds interval, the smartcard cannot be read correct. Please try:
 - Re-insert the smartcard
 - Clean the smartcard contacts
 - Check if you have the correct firmware. T=1 for Irdeto and T=0 for other systems.
- A copy of the ATR is displayed on the Toolbox.
